Book of Home Menus

Showing "What to Serve" and "How to Set and Decorate a Table."

A book to be highly prized, containing table settings beautifully illustrated in natural colors. Also twenty-four menus and more than one hundred recipes for cooking in a

"Caloric" Fireless Cookstove

You will be amazed at the seemingly impossible, almost unbelievable, things it does. It actually bakes cake, pie, bread, biscuits, etc., and actually roasts meats, chicken, game, etc., without any fire whatever except that supplied by the radiators (heated a few moments over a flame the same as an ordinary flat iron), as well as steams, stews, boils, etc.

You can cook practically everything for the family table, better and more wholesomely, more nutritiously, richer in flavor and at less cost than is possible any other way. You can do so the year round, summer and winter.
